

AI-Powered Safeguarding for UK Schools

Smarter safeguarding for every school.

Signal uses AI to keep children safe, reduce staff workload, and ensure consistent practice — so your team can focus on what matters most.

- ✓ AI-driven insights across every safeguarding record
- ✓ Consistent, policy-aligned responses from every staff member
- ✓ Subject access requests at the touch of a button

Action required today

Keep children safe

AI surfaces patterns and emerging risks across every safeguarding record.

Reduce workload

SARs, document summaries and transfers, handled automatically.

Ensure consistency

Policy-grounded guidance so every staff member responds the right way.

Three outcomes that change how safeguarding teams work.

OUTCOME 01

AI that watches for what humans miss

Signal continuously analyses every incident, surfacing connections and emerging risks across your safeguarding record.

- Policy-driven action suggestions
- Interactive insights chatbot
- Pattern recognition across incidents
- Early intervention indicators

OUTCOME 02

Automate the admin, not the judgement

The time-consuming work — compiling records, summarising documents, drafting plans — handled by AI in seconds.

- One-click Subject Access Requests
- Auto-redaction of third-party data
- AI summaries for any document
- Automated nursery & school transfers

OUTCOME 03

A safety net that never sleeps

Whether it's an NQT or a seasoned DSL, every staff member follows the same policies and nothing falls through the cracks.

- Policy-grounded AI guidance
- @mentions with audit trail
- Parent-view safety net
- Right people notified, at the right time

INSIGHTS & REPORTING

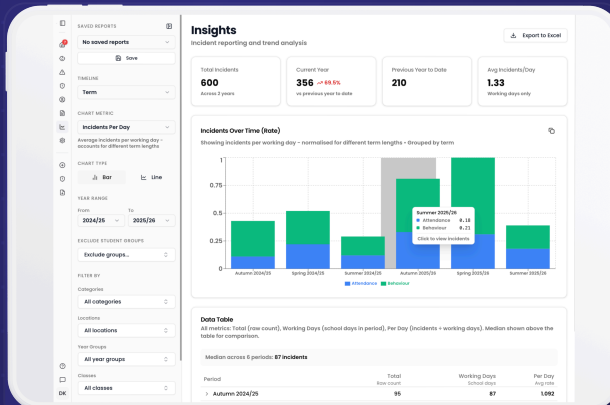

Data-driven decisions, not guesswork.

Interactive dashboards and AI-powered analytics give your safeguarding team the full picture — trends across terms, comparative analysis, and exportable reports for governors and inspections.

Incident trends

Plain-English queries

Excel export for Ofsted

AI safety, built in

Your safeguarding data is **never used to train AI models and is never stored within them** — every AI response runs against your school's own records in isolation.

UK GDPR compliant

Full compliance with UK GDPR and the Data Protection Act 2018.

UK data hosting

All customer data stored in Microsoft Azure UK regions.

DPIA support

Comprehensive documentation for your assessment.

Security by design

Encryption, MFA, passkeys and full audit logging.
